February 8, 2022 – Daniel Bulford Security Brief

10:05 Daniel spoke with OPP Cst. Wierzbicki and expressed his concern and displeasure with the psychological operation being waged on Convoy participants by the government and Police in regard to allegations of Terrorism and the threat of Child Protective Services investigations. Daniel told him that he was disgusted by the Police leadership. The Freedom Convoy had done everything to cooperate with Police to maintain peace public and Police safety with almost zero cooperation in return, including obstructing the servicing of portable toilets and neglecting the basic sanitation needs of citizens. Daniel told him that Police leadership is knowingly attempting to instigate a strong emotional reaction from Convoy participants by using inflamed rhetoric and threatening the involvement of Child Protective Services.
